PROFESSIONAL SUMMARY

Data Analytics and Machine Learning fresher - B.Tech Computer Science graduate (SR University, 2025) with 1+ year of hands-on Python, SQL, and ML experience. Built multi-model time-series ML pipelines using scikit-learn, Pandas, and NumPy, and delivered data visualization dashboards in Power BI. Strong foundation in data analytics, feature engineering, and structured problem-solving, with a track record of applying ML model development lifecycle end-to-end - from data extraction and preparation through model training, evaluation, and insight delivery.

CORE COMPETENCIES

Python & SQL	Machine Learning (scikit-learn)	Data Analytics & Visualization	Feature Engineering	Power BI Dashboards
Jupyter Notebooks	Pandas & NumPy	Data-driven Problem Solving		

WORK EXPERIENCE

Resolence	Aug 2026 - Present
Intern	
Hyderabad	
Contributing to data-driven projects in a professional environment, applying Python and SQL skills to real-world business problems	

PROJECTS

Stock Market Volatility - Multi-Model ML Capstone	ML Capstone
End-to-end machine learning capstone applying multiple model algorithm families (Decision Trees, Boosting) to stock market time-series data. Performed feature selection and engineering, trained and compared models across the ML model development lifecycle, and evaluated predictive performance for financial data analysis.	
Python, Jupyter Notebook, scikit-learn, Pandas, NumPy	
Unicorn Companies Analysis	Data Visualization
Data visualization project analyzing global unicorn companies - identified trends across countries, industries, and funding patterns. Delivered interactive dashboard enabling data-driven insights on startup ecosystem dynamics.	
Power BI	
Identifying Shopping Trends	Data Analytics
Consumer shopping trends analysis using Python and Pandas. Performed data extraction, cleaning, and structured problem-solving to identify purchasing patterns from transactional datasets.	
Python, Pandas, Jupyter Notebook	
Online Banking System	Backend
Python-based system simulating core banking operations with data persistence and management. Designed and built data frameworks for handling multi-entity transactional data.	
Python	

EDUCATION

B.Tech Computer Science	SR University	2025
India		

CERTIFICATIONS

Data Analytics	Codegnan IT Solutions Pvt Ltd, Hyderabad	Jul 2025
----------------	--	----------

Data Base Management System	NPTEL	2024
Leadership and Followership	The Open University	2024

SKILLS

- Languages:** Python, Java, SQL, JavaScript
- ML & Data Science:** Machine Learning, Scikit-learn, Pandas, NumPy, Feature Engineering, Data Analytics
- Data Visualization:** Power BI, Excel, Data Visualization, Jupyter Notebook
- Backend & Web:** Django, REST APIs, HTML, CSS, Bootstrap, Tailwind CSS, React
- Tools & Platforms:** Git, GitHub, Codespaces, Linux CLI
